## MY BACKGROUND

Growing up with a photographer father and his model girlfriend I spent my youth assisting on shoots, learning how to develop and print in the darkroom and working as a junior model.

Whilst continuing to learn about photography with digital cameras and post production work I studied hair and makeup at The London Collage of Fashion and began working as a hair and makeup artist. It was around this time I returned to modeling for roughly 10 years before I felt it was time to move on and start shooting my own images.

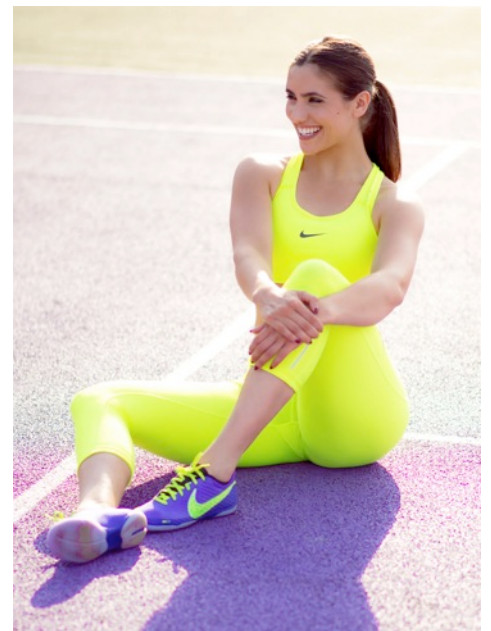

Having over 15 years industry experience in everything from commercial campaigns, e-comms, promotional work, catwalk shows, editorials, bridal and beauty I offer a comprehensive package of portfolio photography for new and established models.

These shoots are tailored to the individual, shooting images that are relevant to your target market and include coaching and agency advice where necessary.

## LOCATION

I shoot from a home studio in Stratford-upon-Avon's 'Old Town.' The house has a traditional studio, a daylight/white studio, lifestyle areas and a separate makeup/ changing room. In the surrounding area are parks, fields, characterful streets and buildings, sports centers, business parks etc.

## WHAT TO EXPECT

I know portfolio shoots can be daunting, even for established models. Your portfolio is the key to signing with agencies booking work. So not only do you need to be looking and feeling your best on your shoot but you also need to be sure you are getting great images that are right for your market and will appeal to potential clients. That's why I carefully plan each shoot to make sure you are getting exactly what you need. I will talk through your target market, your existing portfolio and produce a mood board with set and wardrobe ideas beforehand.

On the day we will work through as many sets as possible up to the allocated time. I prefer working in natural light and most of the locations are within 5 minutes of the studio so we usually get through more than expected.

Once the shoot is complete I download all images, shortlist and process then upload to a password-protected gallery for you to view.

I include some edits per shoot. These images will be retouched, removing any stray hairs, labels or creases in clothes, tweaking backgrounds, removing any blemishes on skin etc. They will always be as natural as possible.

My aim is to capture the best shot we can in camera and with that in mind I am now releasing all 'raw' natural light images we shoot. They will be processed (colours, contrasts etc.) but will not be retouched in any way.

The turnaround for galleries is usually within 5 working days of your shoot and edited images within 7 working days of your selections.

## HALF DAY SHOOT

4 hours  
Minimum 6 looks/changes  
Studio and location  
Gallery of all images for selection  
6 edited shots.  
Now including all natural light 'raw' images.

*'I have trusted Jay's photography with my portfolio updates for years now. Her competence at directing on set and on location is second to none, as is her detailed post production. Whether I am in need of commercial, fashion or close-up beauty images, Jay's creativity and dedication to the shoot guarantees a portfolio of images that agencies and clients find captivating and promotable. She is a photographer I am proud to recommend to other models who are either aspiring into the industry, or are well established and looking for that perfect portfolio package.'* - Jemma Saare Model

*"Jay has a fantastic eye for composition and can immediately identify what will make a shot stand out regardless of whether she is shooting a lifestyle, fitness, beauty or a fashion assignment. I have worked with her on a number of occasions and every time she has made me feel comfortable and totally at ease as a model, and this is crucial for me in getting the best results from a shoot. Jay is technically sound on all aspects of photography and lighting arrangement, resulting in consistent work of a high standard. I couldn't recommend Jay enough to anybody looking to shoot a professional portfolio."* - Luke Boyden Model
